Enjoy affordable accommodation in this beautiful guest house located in the leafy suburbs of Karen in a secure gated neighborhood away from the hustle and bustle of the city.

The House has a dense cover of mature trees, shrubs and a nature trail that leads down to a slow moving stream.

At Kifaru, we focus our attention to personal service. We endeavor to have our guests well taken care of, ensuring them an excellent stay with tasty, healthy, sumptuous meals prepared by an in-house chef. The guest house is well furnished with excellent, adequate and efficient facilities.

On display in each room are beautiful works of African art among them snare arts made by reformed poachers who live adjacent to wildlife protected areas in Kenya.

Kifaru House is a haven that gives you the much-needed peace of mind. Peacefully tucked away in a natural abode near the city yet far from its traffic, the guesthouse offers comfortable accommodation and green spacious grounds for day retreats.

All proceeds received from the guest house are ploughed back into conservation and animal welfare work.
